## Slovene American Club (SAC) - Sustainability Survey

Slovene American Club, 18616 Allen Rd, Melvindale, MI 48122

Decreasing SAC membership and increasing operating costs have created a negative cash flow situation. The SAC is projected to lose approximately \$7,500 this year. Our cash reserves cannot sustain these losses for very long, and it's urgent that we identify actions to correct the situation immediately.

The SAC is collectively <u>our</u> organization. It's a very special place for all of us. We all have a stake in its survival so we wanted to solicit your feedback on how to improve our cash flow and develop a sustainable financial plan.

Please respond to the survey below by either: mailing it back to the club address above, handing it to a board member or scanning/emailing to <a href="mailto:gjchase0425@yahoo.com">gjchase0425@yahoo.com</a>. We would like to compile the results for review at the January Membership Meeting.
